

KEEP Wray Crescent an OPEN space

Please sign our petition to stop Wray Crescent turning into a formal cricket pitch

Islington Council wants to build a cricket pavilion it calls "multi-use", but in reality it is designed to mainly meet cricket needs. There are no dedicated areas for other uses except one non-private space the community can use only *when no cricket is taking place*.

This new plan prioritises and increases the use of the park and the building for cricket, every evening and every weekend between April to October, peak times when we all want to also use the park for picnics, exercise, or other sport.

-  We believe our community deserves better.
-  We believe our community should be properly consulted.
-  We believe plans for this space should meet all our needs.
