

Orchard Seasonal Care Programme

Orchard name:

Name:

Date:

Trees being cared for:

	Spring What needs doing? Who will do it?	Summer What needs doing? Who will do it?	Autumn What needs doing? Who will do it?	Winter What needs doing? Who will do it?
Ensure trees do not go thirsty or hungry.				
Ensure trees are protected - wind, vandalism, strimmers, dogs.				
Ensure trees are not in competition with other plants.				
Ensure biodiversity is maintained - including continuity of habitat.				
Encourage trees to resist pests and disease – including pruning approach.				
Encourage people to be involved in the orchard – e.g. events.
